

Twenty Kids, Italy and Me

A. J. Valentini (August 08, 2015)

2015 edition of the IACE Summer Program. From Milan to Rome on the “Frecciarossa,” a high speed train which travels at speeds up to 300 kilometers an hour (over 180mphs!), and in Rome transferred to a local train to the town of Narni, in the southern end of the region of Umbria in central Italy. For all unforgettable encounters with ancient and modern Italy and new friends that they had made along the way.
